With my setup here in packet tracer I'm trying to simulate a small network and would like to ping the last router (simulating internet) from the laptop. Since packet tracer doesnt have firewalls I'm using the first router as the "firewall" in my LAN, there are no acl or anything on it, just the outside interface with the ip address of the ISP router and an ip route 0.0.0.0.0.0.0.0 x.x.x.x (x.x ...
