A city is a large human settlement. It can be defined as a permanent and densely settled place with administratively defined boundaries whose members work primarily on non-agricultural tasks. Cities generally have extensive systems for housing, transportation, sanitation, utilities, land use, and communication. Their density facilitates interaction between people, government organisations and ...

France has one of the most highly developed transportation systems in Europe. Its outstanding characteristic has long been the degree to which it is centralized at Paris — plateaus and plains offering easy access radiate from the city in all directions, and rivers with broad valleys converge on it from all sides. In 2003, the French road ...
