Beautiful and unique, this duck of woodland ponds and river swamps has no close relatives, except for the Mandarin Duck of eastern Asia. Abundant in eastern North America in Audubon's time, the Wood Duck population declined seriously during the late 19th century because of hunting and loss of nesting sites. Its recovery to healthy numbers was an early triumph of wildlife

Bird watchers are likely to spot a few birds that are unique to WA, such as the iconic but endangered Carnaby's black-cockatoo. But it's in the tiny feather-sphere category that Perth really excels: "Perth has a remarkable collection of fairy-wrens," Ken says. "There are five species present, including the widespread splendid blue wren and the southwest endemic red-winged fairy-wren ...

The eerie calls of Common Loons echo across clear lakes of the northern wilderness. Summer adults are regally patterned in black and white. In winter, they are plain gray above and white below, and you'll find them close to shore on most seacoasts and a good many inland reservoirs and lakes. Common Loons are powerful, agile divers that catch small fish in fast underwater chases.
