Combustion or burning is a complex sequence of chemical reactions between a fuel and an oxidant accompanied by the production of heat or both heat and light in the form of either a glow or flames.

[An Introduction to Combustion \(Burning\) Reactions](#)

Spontane menschliche Selbstentzündung (engl. Spontaneous human combustion, SHC) ist die Bezeichnung für einen modernen Mythos, nach dem menschliche Körper ohne Anlass Feuer fangen. Dieser Mythos basiert auf der Existenz von Leichen, von denen Körperteile teils mitsamt Knochen verbrannt waren, während die Gegenstände in der Nähe unversehrt blieben.

La combustión siempre da como resultado CO<sub>2</sub>, vapor de agua, energía y otro compuesto. Las combustiones son un tipo de reacción redox, es decir, reducción-oxidación. Esto significa que en ellas un material se oxida (pierde electrones), mientras que el otro se reduce (gana electrones).

Eine Verbrennung ist eine Redoxreaktion, die unter Abgabe von Energie in Form von Wärme und Licht abläuft, also exotherm.. Im allgemeinen Sprachgebrauch versteht man unter dem Begriff die Oxidation eines Materials mit Sauerstoff unter Flammen-Bildung ().In der Chemie werden auch derartige Reaktionen ohne Sauerstoff als Verbrennungen bezeichnet.

Combustion in a flow (flare process)—the combustion of a flow when it issues from a tube (nozzle) into an open space or chamber—is a form of combustion that is very widespread in technology. A distinction is made between the combustion of a previously prepared mixture and of a fuel and an oxidizing agent that are flowing out separately, where the process is conditioned by mixing (diffusion ...

Combustion is the primary source of CDD/CDFs to the global environment. CDD/CDFs are generated in waste incineration (e.g., municipal solid waste, sewage sludge, medical waste, and hazardous wastes), fuel combustion (e.g., oil, gasoline, diesel, coal, and wood), other high-temperature sources (such as cement kilns), and poorly controlled or uncontrolled combustion sources (e.g., forest fires ...
