Religion Online is designed to assist teachers, scholars and general "seekers" who are interested in exploring religious issues. The aim is to develop an extensive library of resources, representing many different points of view, but all written from the perspective of sound scholarship. While the initial orientation has been to seek material written primarily from a Christian perspective, the ...

These include web-based climate models, climate data archives, interactive atlases, policy papers, and "solution" catalogs. Unlike a standard textbook, it is designed to help readers do their own climate research and devise their own perspective rather than providing them with a script to assimilate and repeat. Religion attempts to offer a view of all of life and the universe and to offer answers to most, if not all, of the most basic and important questions which occur to humans all over the planet. The answers offered by Religion are not often subject to the careful scrutiny of reason and logic. Indeed many religious beliefs defy logic and seem to be unreasonable. Religion has its basis in belief ...
