A Spanish Navigator Rediscovered The Avocado In Yaharo In the 1500s. But it was the 15th-century navigator Martin Fernandez De Encisco from Seville, Spain, who brought the fruit back to popular knowledge when he set out on his quest of discovering the unknown in the "New World." Encisco writes in his seminal work Suma de Geografia (1519) about a fruit he chanced upon at the port town of ...

His work was at first rejected by other scientists who were convinced of blended inheritance and Darwin's theory of pangenesis. Rediscovered in the early 20th century many years after his death, Mendel's work was incorporated with Darwin's theory of evolution by natural selection to form the basis of the Modern or Neo-Darwinian Synthesis.

This language eventually became Java. In 1994, the Java project team changed their focus to the web, which was becoming "the cool thing" after interactive TV failed. The next year, Netscape licensed Java for use in their internet browser, Navigator. At this point, Java became the language of the future and several companies announced ...

Europeans rediscovered or adopted Greek, Roman, and Muslim knowledge. The hemispheric dissemination of goods and knowledge not only sparked the Renaissance but fueled long-term European expansion. Asian goods flooded European markets, creating a demand for new commodities. This trade created vast new wealth, and Europeans battled one another for trade supremacy. European nation-states consolid
